AGETIC-BTP
CONSULTING ENGINEERS

2026 EDITION

COMPANY PROFILE

Sound design, every stage supervised.

Consulting engineering firm based in Ouagadougou, Burkina Faso: technical studies, works supervision and full project management for buildings, roads, civil engineering and water infrastructure, on behalf of public and private project owners.

TECHNICAL STUDIES | WORKS SUPERVISION | PROJECT MANAGEMENT | BUILDINGS | ROADS | WATER | EXPERTISE

THE FIRM

Independent engineering on the project owner's side

AGETIC-BTP (Agence d'Études Techniques et d'Exécution en Constructions Civiles et Hydrauliques) is a consulting engineering firm based in Ouagadougou. It supports the State, local authorities, development programmes and private developers at every stage of their projects.

The firm is registered with the Order of Civil Engineers of Burkina Faso.

Its engineers sign the studies, lead the supervision assignments and are personally accountable for the quality of the works they oversee.

> Our role: protect the project owner's interest. Reliable studies, controlled costs, compliant works delivered on time.
